

RubberDrainage Kitchen Mats

RubberDrainage Kitchen Mats are slip-resistant, premium rubber kitchen mats that boast a textured surface to help remove food and debris and a 3/8" low-profile design with ADA-compliant beveled edges, perfect for busy commercial kitchens with areas with rolling carts.

The alternating link, high-low surface pattern on these kitchen mats can aggressively scrapes food and debris off shoes while maintaining traction even with liquids present. Food particles are held in the floor mat's trenches while liquids flow down through the drain holes.

These kitchen mats are made from skid-resistant Nitrile rubber, which makes these rubber floor mats oil, petroleum and grease proof.

RubberDrainage kitchen mats are treated with an anti-bacterial compound to protect against micro-organisms and minimize odors.

These kitchen floor mats are idea for food processing and prep stations, walk-in refrigerators and dishwashing areas.

To clean these rubber kitchen mats, simply shake out, hose down or wash them in the dishwasher or commercial washing machine.
